

Title: "SPACE TOURISM & GEO-LUNAR INDUSTRIALISATION - KEY TO RELAUNCH THE GLOBAL ECONOMY"		Date: February 18th 2013	
Code: NRP.024		Rev. 1.0	Page 1 / 2

What is	<p>This seminar leads the participants to an holistic vision of the near Earth space industrialization, analyzing with realistic eye the current unprecedented world economic situation, after centuries of successful industrialisation, there is already not enough work to employ everyone full-time, and we're living an accelerating loss of traditional jobs, with consequent loss of precious know-how and decay of the global culture. The conventional present and future economy scenarios are discussed as well, identifying the really promising new major industries, giving primary attention to <i>passenger space travel</i>. The potential figures of such new development line are compared to the other candidate industries, giving to the attendees a good understanding of the entrepreneurial and investment opportunities.</p> <p>WORKSHOP to be guided by participants' needs. Possible themes to deepen: earliest steps, supportive policies, promising research fields within which to identify strategic industrial and business opportunities related to passenger space travel, space manufacturing, lunar development, extra-terrestrial materials utilisation, international economic and geo-political implications, implications for strategic industries: energy, materials; policies for maximising employment.</p>
For who	Entrepreneurs, investors, venture capitalists, visionairs, new "Medici", economic and industrial policy-makers, socially contributive individuals.
Type	Classroom-type instruction and interaction.
Duration	8 hours (1 day) - introduction 24 hours (3 days) - advanced stage. More extended course, to be defined according to the Customer's needs.
Where	The seminar can be held at the customer premises, with logistics supplied by the customer, or it can be organized by ASE LTD, grouping together several attendees having similar requirements and profile.
Benefits	The attendees will achieve ability to successfully invest (either public or private) in activities leading to the development of the new space economy, eventually creating millions of new jobs within a few decades.
Deliverables	Electronic copy of the materials used during the seminar: slides, documents, materials produced during exercises.
Teachers	<p>The lead trainer, Dr. Patrick Q. Collins, is a well-known and respected authority on space economics, space tourism, reusable launch vehicles, and space solar power. He is a professor of economics at Azabu University in Japan and adviser to a number of companies and organisations. The focus of Dr. Collins' research for the past 25 years has been how to stimulate growth of commercial space activities, the two main opportunities being tourism and energy supply. He is co-founder of Space Future Consulting, which maintains the Spacefuture.com archive. Dr Collins is closely involved with Japanese work on space tourism and space solar power, and is Chairman of the Society for Space Tourism of Japan (SSTJ). Patrick is co-founder of the Space Renaissance International, where he holds the position of Vice-President</p> <p>Please also see: SpaceFuture: http://www.spacefuture.com/cgi/glossary.cgi?gl=who&term=Collins</p>

Send us [your manifestation of interest for this seminar](#), you will be re-contacted, in order to:

- a) join an already scheduled session, *or*
- b) keep you in the list for a not yet scheduled session, *or*
- c) organize a session at your premises.

Please also specify:

- the seminar code(s) you are interested to:
- the number of participants to the class(es):
- skill and experience of the participants:
- your goals and expected benefits:
- where do you want the class(es) to be held:
- tell us your preferred planning: one day units, dates to be negotiated
